

New tool: SocialVote - put your name ideas to the vote!

Put your name ideas to the vote! Share your names via Facebook, Twitter, or email and get ratings from friends, colleagues, or other Internet users. You will then receive statistics telling you how well your name ideas performed.

The screenshot shows the 'My Names' interface of the SocialVote tool. It has a tabbed navigation system with 'My Names' and 'SocialVote' tabs. Below the tabs are two buttons: 'Refresh statistics' and 'Word statistics'. A table displays three name ideas: 'Webolino', 'Startupper', and 'Softixx'. Each row includes an 'Active?' checkbox, a rating (4.3, 2.3, and an empty field), a count (3, 4, and an empty field), a small icon, and the name itself. To the right of each name are four icons for social media sharing: Facebook, Twitter, Email, and a bar chart icon.

Active?		Σ		Word				
<input checked="" type="checkbox"/>	4.3	3		Webolino				
<input checked="" type="checkbox"/>	2.3	4		Startupper				
<input checked="" type="checkbox"/>				Softixx				

The SocialVote tool will help you rate your name ideas. Find out more about how the tool works on the [SocialVote page](#).

With SocialVote, you have a convenient tool at hand to allows you to assess your name ideas online.
