Make a name for yourself

## Get your custom-made name now

A new service by NameRobot: the [Naming Service](#) provides you with custom-made name suggestions for your projects.

Sometimes, a name is needed soon or professional naming know how is needed. This is when you will want to make use of NameRobot's [Naming Service](#).

No matter what type of name is needed: the Naming Service will find it. All name suggestions are carefully researched and, if desired, will still have free domains. To top it off, the Naming Service

News published: 19/01/2014

creates **customized name suggestions** for a low fixed price - regardless of the type of project.

When asked why NameRobot offers this additional service, founder Mark Leiblein explains: "Not every company has the time or inclination to deal with business naming themselves. With this new offer, we now have a practical solution for you."

**How does the Naming Service work?** The customer simply fills out a step-by-step questionnaire and tell us his wishes regarding the name. The Naming Service evaluates all questions and immediately starts with the name search. The team is individually assembled, depending on the project, and always guided by an experienced professional name finder. This guarantees high quality results.

The Naming Service does not only use original research and teamwork for finding names, but also makes use of NameRobot's naming tools.
